Classic Aesthetics

30 mm standard mount rings allow for easy switching between traditional white light scopes and the Tube NV without the need for changing mount fixtures.

Model	TD70L V2
Sensor Resolution, pixels	1920 × 1080
Pixel Size, μm	4
Objective Lens, mm	70/ F1.8
Field of View, °	4.7×3.5
Magnification, X	5.5~22.0
Eye Relief, mm	45
Display	1440×1080 OLED
IR illuminator Wavelength	850nm/ 940nm (optional)
External Power Supply	5V (Type C)
Tube Diameter(For the mounting rings), mm	30
Max, Recoil Power on Rifle Weapon, g/s²	6000
Waterproof Grade	IP67

70mm Objective Lens

A larger lens can capture more ambient light, which can help obtain greater detail and image information in low-light conditions. This is crucial for identifying distant targets.

Unveiling Day and Night's Secrets

During daylight hours, from dawn to dusk, when it's challenging for the human eye to discern target details, TUBE NV enhances your target recognition capabilities.

Recoil Activated Video

Never miss a captivating moment again with RAV, as it automatically records the moments before and after your shot.
