

TECHNICAL DATA

MODEL	5-25x56 LR
Magnification	5-25x
Objective diameter mm	56
Diameter exit pupil mm	10,6 / 2,3
Field of view at 100 m	7,2 / 1,6
Eye relief mm	-90
Diopter adjustment	- 4,0 / + 2,2
Elevation and windage adjustment (per click at 100 m) cm	± 280
Reticle adjustment range (elevation & windage) cm	± 60
Parallax compensation m	50 m to ∞
Illuminated reticle	Yes
Focal plane	1.
Power source for illuminated reticle	1 x CR 2032
Nitrogen gas purged	Yes
Non-fogging, waterproof according to IPX7	Yes
Tube diameter mm	34
Weight g	940
Order no.	80107665

FEATURES

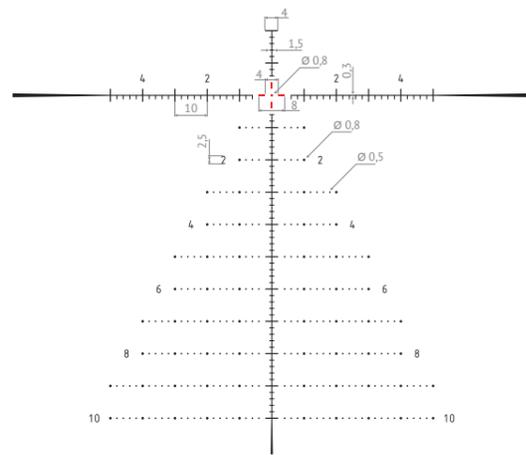

- Precise mechanics and rugged construction for highest shooting stability and shot repetitions
- Highest image quality, even at the edges owing to complex optical design and use of special types of glass
- M* multi-coating on the optical elements provides excellent light transmission, contrast and color rendition
- Generous 90 mm eye relief provides safety even for use with high calibers
- A brilliant image in the bright sunlight as well as an excellent contrast in the last light
- Ingeniously designed, practice-oriented long-range reticle at the first focal plane – for long distances
- Waterproof according to IPX7 and protected against internal fogging
- Comfort Service – 10-year warranty (after registration)

PRODUCT INFORMATION

LONG-RANGE

5-25x56 LR

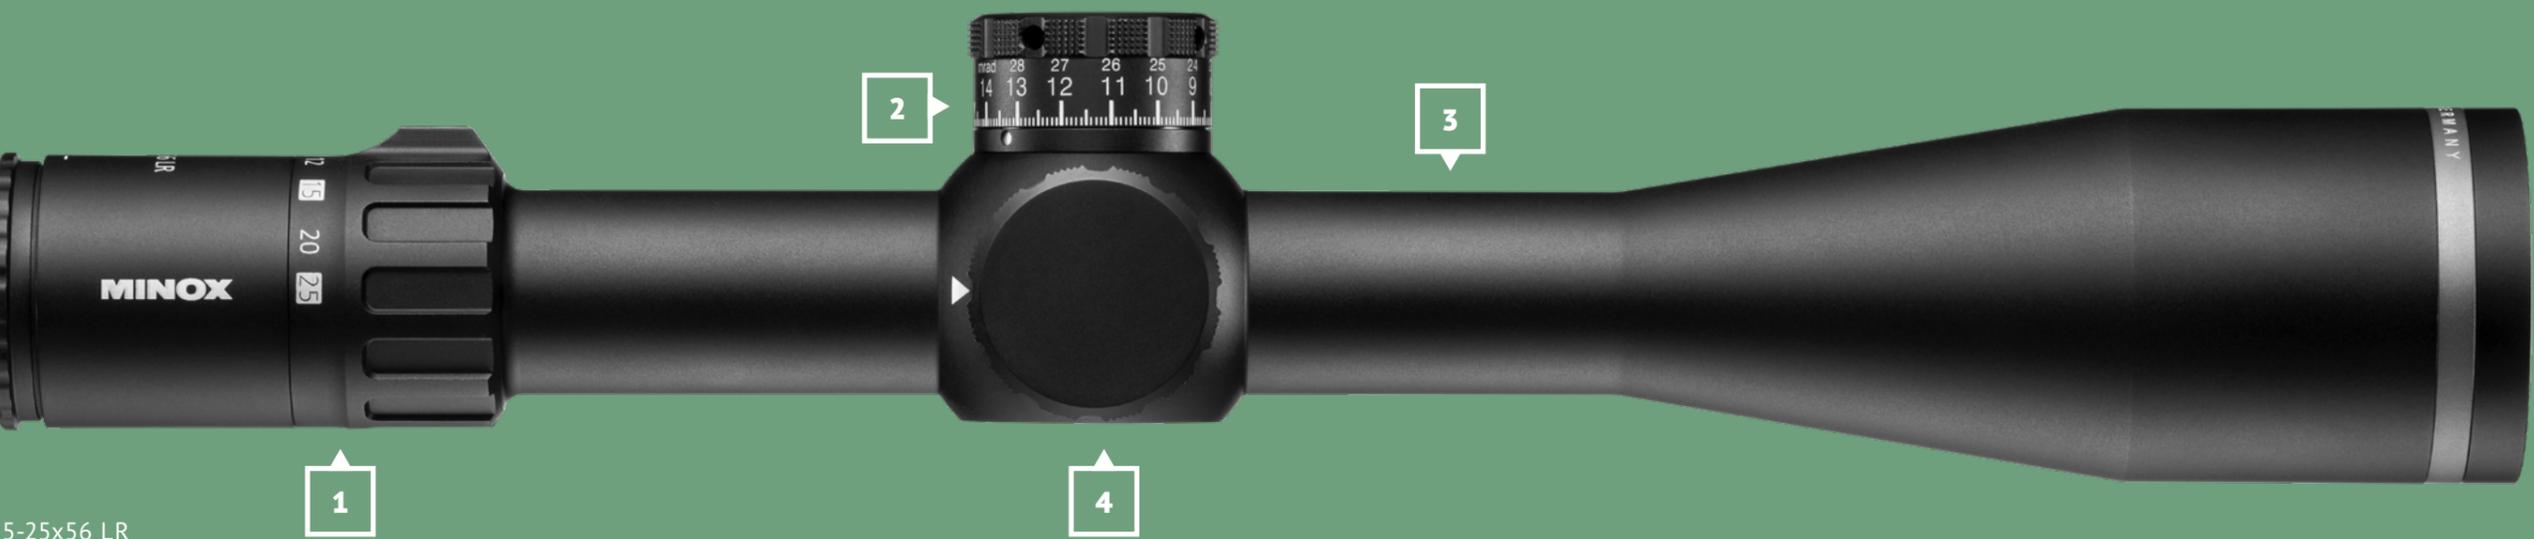

LONG-RANGE

TARGET OPTICS FOR HIGHEST DEMANDS

Created for long distances. Created for difficult conditions. Created for you. Our riflescope for long distances offers you mechanical precision, optical quality and robust construction at the highest level. A sophisticated and practice-oriented reticle at the first focal plane for every application should of course not be missing here.

Are you looking for a challenge under extreme conditions? Then the MINOX long-range riflescope is your choice!

MADE
IN GERMANY

5-25x56 LR

INCLUDING BEST PROTECTION FOR YOUR SCOPE

The Tenebraex flip-up covers are included in the delivery – for a reliable protection of objective and eyepiece with every use.

Tenebraex
A DIVISION OF ARMAMENT TECHNOLOGY INCORPORATED

- 1 | 5x magnification range for utmost flexibility
- 2 | 28 mrad Double Turn (DT) elevation adjustment with zero stop and indicator for the second turn
- 3 | Ingeniously designed long-range reticle in the first focal plane with finely dimmable illumination
- 4 | Parallax compensation from 50 m to infinity with 180° rotation angle
