MINOX
Great Price. Great Performance.

The honest choice!

My hunting optics. My MINOX.

When deciding on a brand, what matters to me most when all is said and done, is what I get for my money. I don't beat around the bush about that. Because the way I hunt, my equipment has to give me: perfect craftsmanship and honesty. And please, without a bunch of ballyhoo that I have to pay for, without getting anything out of it. My brand comes from Wetzlar. My brand is called MINOX. Because they build observation and target optics that I can afford and can pay for. Perfect craftsmanship and honesty.

Why MINOX?

X-range 10x42

My binoculars with laser rangefinder.

NEW

Our newest member to the family

MINOX
Great Price. Great Performance.

NEW

My MINOX.
Smart optics. Smart price.

Product overview 2021 | Hunting

I've got what it takes!
My rifle scope. My MINOX.

Everything has to be just right with my rifle scope - is that too much to ask?! I want insanely good transmission and brilliance for safe shots down to the last light. I want an illuminated dot with automatic deactivation, which I can adjust to any conceivable lighting situation. And I want perfect „Made in Germany“ workmanship for uncompromising stability and precision. What I don't want? To spend a fortune on it! And that's exactly why I have a MINOX. It's got what it takes - and now so do I!

I see it all!
My binocular. My MINOX.

That one observation optic for every type of hunting just doesn't exist. But the two „must-haves“ for my equipment do exist: top quality and a fair price. Because I want more than just a status symbol, which is then mostly only a compromise. Depending on the type of hunting I want to do, I want to have the optimal binocular along and take advantage of those opportunities that compromises just don't provide. I've got MINOX optics around my neck. Because they see it all - and so do I!
